

THE EUROPEAN SOCIETY
OF VETERINARY OPHTHALMOLOGY

ESVO WORKSHOP 1

📅 02.10.2022 ⌚ 7:30-9:00

Breakfast with mentors – presenting techniques of the wetlab

The workshop starts early Sunday morning as breakfast with speakers. Dr. DJ Haeussler, Dipl ACVO from the US and Dr. Joao Alfredo Kleiner from Brazil are going to instruct how to use intraocular devices such as various IOLs and injectors, capsular tension rings, iris hooks, capsule hooks, etc. The workshop will be organized as open round table discussion. There are other options to discuss:

1. Dentals before cataract surgery. Yes or no? Speaking of...how much do you do diagnostically prior to surgery? Ultrasound? ERG? cPLR? Blood pressure? CBC/Profile? Dentals? Urine? Urine Culture?
2. Breeds with primary lens luxation. When you notice some instability, when do you start talking about lens removal? Do you place an IOL? Do you suture an IOL? Do you place a CTR?
3. What type of IOL do you use? What basis your decision on which brand you go with?

Dr. DJ Haeussler

Dr. Joao Alfredo
Kleiner
